## FEATURES OF QUARTZ STONE SLABS

**Wear Resistant** : with a high resistance to wear, classifying it as "anti-scratch"

**Resistant to Mechanical Stresses**: substantially surpassing impact resistance and flexural strength parameters of natural stone.

**Antistatic** : can discharge electrostatic charges that are normally created in everyday surroundings

**Anti-slip** : making it the perfect product for surfaces that require anti-slip properties

**Chemical Resistant** : with a high resistance to corrosive substances which are commonly used in everyday and domestic surroundings, classifying this product as "resistant to acid attacks"

**Stain Resistant** : practically non-porous, classifying it as "resistant to stains"

**Ice Resistant** : resistant to climatic changes such as freezing / thawing cycles so it can be used outside

**Antibacterial** : makes surfaces inhospitable to bacteria and mould or even destroys the most common bacteria and moulds found in everyday and domestic surroundings

## COMPARATIVE TABLE

	Shiva Quartz	Granite	Marble	Limestone	Laminate
Resistant to Household Chemicals, Acids and Solvents	✓	•	•	X	•
Stain Resistant	✓	•	•	X	✓
Nonabsorbent and Nonporous	✓	•	X	X	•
Scratch Resistant	✓	✓	•	X	•
Chip and Crack Resistant	✓	•	X	X	•
Heat and Burn Resistant	✓	✓	•	•	X
Low Maintenance	✓	•	•	X	•
Mold and Mildew Resistant	✓	•	•	X	✓
Color Consistency	✓	•	X	•	✓
Resistant to Corrosion	✓	•	X	X	•
